Featured on our home page, Tyler, a sweet and happy pup, is a recent transfer from a W. VA shelter that is set to close. He had a badly broken femur upon arrival requiring extensive and expensive orthopedic surgery. Now he needs a foster home for the next four months where he can get daily physical therapy. With this care, the 9-month-old, diminutive, brown and white Spaniel mix is expected to make a successful recovery.

This little guy responds better to BoBo rather than BowBow, but he comes when called because he likes attention. BowBow is eye-candy for those who like anything cute. He also has a penchant for emitting a funny growl when "spreading the wealth" after going potty! BowBow is unflappable when it comes to other dogs, standing his ground with confidence and calm. He arrived with MooMoo, who has since been adopted.

Her surrender sheet is very sparse on helpful information, but one look at this photo tells the story of just who China is inside. She is a happy, friendly and oh yes, well-fed girl who will walk away with just about anyone. This "tub-o-love" would be a great companion in most any home. China has been enjoying the largest room at the shelter ready to welcome any interested guests with a big smile and excited waddle.
